Academic Projects

Onyx consultancy services

Tools: React.js, Node.js , Bootstrap
Roles: Frontend Developer, UI Designing
Developed a professional business website for Onyx Consultancy Services, featuring a responsive design, optimized performance, and a user-friendly interface. The website effectively showcases their services and enhances their online presence.

NGO Project

Tools: React.js, Bootstrap , Database ,CSS
Roles: Frontend Developer
A complete web application built using React.js featuring an admin panel for efficient user and data management. The project authentication, role-based access control, and an intuitive dashboard for managing content dynamically. The admin panel enhances the system's scalability and usability, providing seamless control over application functionalities.

Portfolio

Tools: React.js , React Bits , UI Design
Roles: Frontend Developer
Showcased professional skills, projects and achievements with a clean and Responsive design. Focused on modern web development practices, ensuring compatibility across different browsers and devices.

PGM Project

Tools: React.js , Restful API , .NET
Roles: Frontend Developer
Developed an Admin Panel for a Hotel Management System to efficiently manage hotel operations. The system includes features for managing room bookings, customer details, building, payments, and reports. Implemented secure authentication, real-time data updates, and an intuitive dashboard for seamless administration.
